Chairs of Governors' Briefing

June 2022

Agenda

- Schools White Paper
- Academisation
- Schools and Carbon Net Zero

Our Schools white paper vision, ambitions, and strategy to deliver

Vision

A school system that helps every child to fulfil their potential by ensuring that they receive the right support, in the right place at the right time - founded on world-class literacy and numeracy as the cornerstone of an excellent education. Delivering on the government's priorities of building back better after the pandemic and levelling up across the country.

Ambitions by 2030

- ❑ Key Stage 2: 90% of pupils meeting the expected standard in maths and reading at Key Stage 2
- ❑ Key Stage 4: National GCSE average grade in both English language and in maths increased from 4.5 in 2019 to 5

Our strategy

1. Teachers

Ensure we have excellent teachers in all areas of the country, trained in the very best literacy & numeracy approaches

2. Standards

Support our teachers to deliver high standards for all pupils, with a relentless focus on behaviour & attendance, and access to the best-evidenced resources

3. Targeted support

Deploy targeted support for those who need it most, especially the most vulnerable and disadvantaged children

4. System

Underpinning this, ensure that there is a stronger school system, including fair and adequate core funding and every school belonging to a strong trust with strong leadership and governance

DfE Expectations of LA

Liverpool
City Council

- What are the remaining barriers to academisation within the LA and how will these be addressed?
- How will the LA develop and grow strong trusts to meet the full range of educational need in all phases?
- How will the LA contribute to bringing coherence into the system, including moving SATs into MATs, transferring academies and trust mergers?
- What are the biggest challenges that your LA faces? How will you address these challenges?

Carbon Net Zero

Liverpool
City Council

- Priority within Council and City Plan
- Role of education system:
 - raising awareness, building capacity and skills
 - children and young people ... active voice and partners in sustainable change
 - preparing children and young people for a green economy
- De-carbonisation and condition surveys
- Active travel
- Green skills and carbon literacy
