How has the School Census Spring Return Changed since Last Year	?:

Importing Revised Filesets for Validation and Reports	3
School Census Return Process Flow	6

#### **Introduction**

This preparation guide has been produced to help to identify the most common tasks that need to be carried out before running the School Census Spring 2016 Return.

The information in this guide applies to all English LA maintained Nursery, Primary, and Special school phases. It also applies to Academies and Pupil Referral Units that cover any of these school phases.

Where the information relates to a specific school phase, it is indicated in red, e.g. Applicable to Special schools only.

NOTE: The content of the graphics (dates, names, etc.) displayed in this preparation guide are examples <u>only</u> of what you might expect to see when using SIMS to prepare for the forthcoming School Census Return.

# How has the School Census Spring Return Changed since Last Year?

Changes to the return include the following:

#### **Childcare Enhancements**

# Focus | Schools | School Details Routines | Statutory Returns | School Census

To enable childcare provisions that are provided or signposted by the school to be maintained at any point during the year, the following changes have been made in SIMS:

- The childcare items previously recorded in the School Census Summer Return (via the **Routines** menu) have been moved to the **School Details** page (via the **Focus** menu). Items can be added, edited and deleted.
- The School Census Childcare panel (originally introduced in the School Census Summer 2015 Return) is now read-only and is available in the Spring return only. An Edit button links directly to the School Details page, where an editable Childcare panel is displayed.
- **Childcare Provisions** have been added to the General detail report.
- Two new lookups are now available Childcare Site and Childcare Signposted.

#### **Early Years Pupil Premium Eligibility**

# Tools | Statutory Return Tools | Update Early Years Routines | Statutory Returns | School Census Tools | Lookups | Maintain

- The menu route previously named Tools | Statutory Return Tools |
   Update Hours for Early Years has changed to Tools | Statutory Return Tools | Update Early Years.
- A new report, entitled Early Years Report, is available from the **Detail Report** drop-down list in the School Census area of SIMS.
- The existing Hours for Early Years panel has been renamed Early Years.
- Columns named Basis for EYPPE Eligibility and In Care have been added to the Early Years panel. The In Care column is read-only (applicable to Primary schools only).
- The following new lookups are available when specifying the basis for EYPPE eligibility: Not Eligible, Economic, Other, Economic and Other and Unknown (applicable to Primary schools only).

#### New Functionality for a Brand New Academy/Free School

#### Focus | School | School Details

For a brand new Academy/Free School, where there is no previous DfE number and no previous database, the School Census can now be run without having to enter the date when the school **Establishment Number** or the **Unique Reference Number** (URN) changed.

<sup>2</sup> Preparing for the School Census Spring 2016 Return (English Primary/Middle deemed Primary, Nursery and Special school phase) preparation guide, applicable to 7.166 onwards (Word version)

## What Version of SIMS is Required?

In order to run the return, you must have the SIMS 2015 Autumn Release (7.166) or later installed.

To check the version of SIMS installed, open SIMS then select **Help | About SIMS**. A dialog similar to the following graphic is displayed.

The version should read 7.166 or later.

If you do not have the latest version check the School Improvement (EDNet) website for details on how to download and run the upgrade, see link below <a href="http://www.ednet.co/SIMS---ICT-Support">http://www.ednet.co/SIMS---ICT-Support</a> (Select the SOLUS Tab)

## **Import the Revised Fileset for Validation and Reports**

#### Applicable to the Personnel Officer, Returns Manager and System Manager

The Validation Errors Summary and the Summary report are derived from files supplied by the Statutory Body. In addition, SIMS provides detail reports to enable the checking of data used to generate the return. These report files are initially installed automatically during the SIMS release upgrade.

Occasionally, additions or corrections are made to these files, after a SIMS release, which are required for the forthcoming return. The Import Fileset functionality is provided to enable these files to be imported into SIMS, by the Personnel Officer, Returns Manager or System Manager <u>between</u> the SIMS releases.

For the Spring 2016 Census a revised Fileset is required to be imported by **ALL** schools. At the time of writing these notes **Fileset 222** is available but there may be a later version available in January.

The revised files are supplied as a ZIP file, which should be downloaded from School Improvement Website (EDNet), unzipped and saved locally to your PC then imported into SIMS via **Tools | Setups | Import Fileset**.

For full details of how to download and import the fileset see the following pages

TIP: To check which version of the fileset is currently in use, select Routines | Statutory Returns | School Census to display the Census Return browser. The Validation Fileset ID is displayed in the header of the browser.

If you are not on at least 222 you will need to import a new fileset as outlined below.

#### **Downloading the Revised Files**

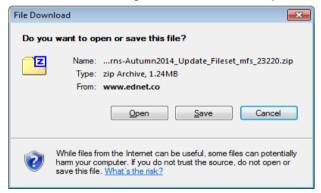

The revised filesets will be published to the School Improvement (Ednet) website as a zipped file which will need to be saved to your PC and unzipped

**NOTE:** This file can be imported on any SIMS PC – you do not need to be on the main SIMS Workstation\Server – once imported all SIMS PCs will recognise the new file.

- 1. Click on link to access the website <a href="www.ednet.co/SIMS---ICT-Support">www.ednet.co/SIMS---ICT-Support</a> select the Census Tab.
- 2. On the school Census tab, click the link named

!NEW – Census Fileset version 222 - required by ALL schools (Or higher version should a new fileset be released)

You should then receive the message below. Select Open

- 3. You should now see the 2 files required to save to your PC 0222-StatutoryReturns-Spring2016\_Update.mfs.signature 0222-StatutoryReturns-Spring2016\_Update.mfs
- 4. Highlight **both** the files and right click and select copy (or Copy To)

4 Preparing for the School Census Spring 2016 Return (English Primary/Middle deemed Primary, Nursery and Special school phase) preparation guide, applicable to 7.166 onwards (Word version)

5. You will then need to browse to the location on your PC to **Save** this file. It is suggested to save in the following location

F:\SIMS\ManifestFiles, (where F: is your networked SIMS drive).

Paste the files to this location and check this folder now shows the 2 latest files (older files will also show in this folder).

#### **Importing the Revised Files into SIMS**

 In SIMS, select Tools | Setups | Import Fileset to display the Import Fileset page.

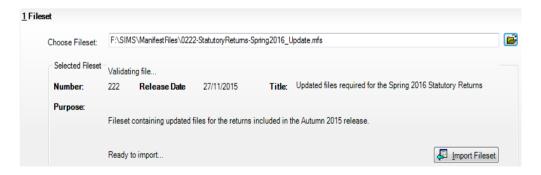

- 2. Click the **Browse** (folder) button to display the **Open** dialog.
- 3. Navigate to the location of the fileset you have just saved. F:\SIMSWanifestFiles.

Select the file name: <222-StatutoryReturns-Spring2016\_Update.mfs

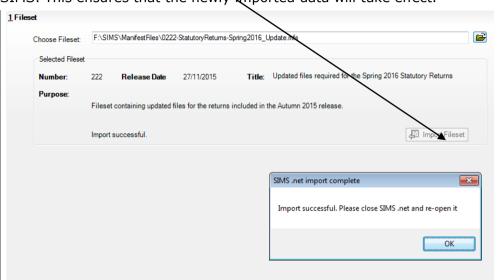

4. Highlight the file then click the **Open** button. Alternatively, double-click the required MFS file to return to the **Import Fileset** page.

NOTE: The following graphics show example data only.

Details of the selected fileset are displayed, including the version **Number** of fileset, **Release Date** and fileset description (**Title**).

5. Click the **Import Fileset** button to import the fileset into the DMS. When the import process is finished, **Import successful** is displayed at the bottom left-hand side of the **Fileset** panel and you are advised to restart SIMS. This ensures that the newly imported data will take effect.

- 6. Click the **OK** button then restart SIMS.
- 7. Run the return in the usual way.

To check which version of the fileset is currently in use, select Routines | Statutory Returns | School Census

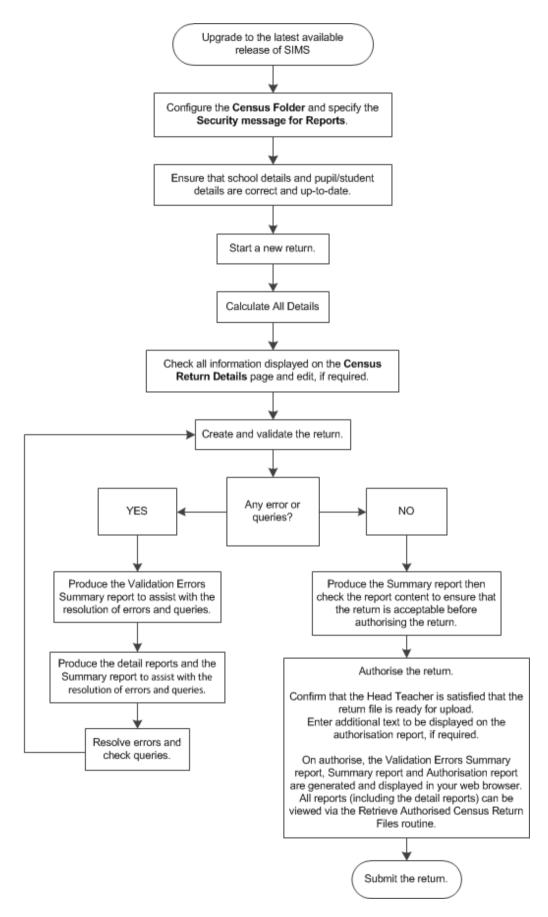

At the top of the screen before you access a census return the **Fileset ID** should now be showing as **222** (or later – depending on the Fileset version you have just imported).

Completed

#### **School Census Return Process Flow**

The following provides a brief outline of the steps involved in producing the School Census Spring 2016 Return. If data has been regularly and accurately maintained, many of the activities in this document are unnecessary. However, it is advisable to check to ensure that the information is up-to-date.

- 1. Upgrade to the SIMS 2015 Autumn Release (7.166) or later.
- Carry out one or more dry runs to identify any errors that may exist in your data.
- 3. Ensure that the relevant pupil and school data exists in SIMS and that it is complete and correct. Use the Bulk Update routine (**Routines | Pupil | Bulk Update**) to correct missing or invalid data, if required.
- 4. Complete the information on the **Census Return Details** page.
- 5. Create and validate the return.
- 6. Resolve any validation errors/queries and then create and validate the return again.
  - Continue to resolve the validation failures then repeat the Create and Validate routine until you are satisfied that the content of the return is correct.
  - The detail reports and Summary report can be generated to assess the accuracy and completeness of the return.
- 7. Provide the Head Teacher with the latest copy of the Summary report to enable them to check that all information is correct before they give approval for authorisation of the return.
  - The Summary report can be used in conjunction with the detailed reports.
- 8. Once approval has been given, authorise the return (Routines | Statutory Returns | School Census Authorise button).
- Upload the return to the DfE COLLECT data collection website or submit it to your Local Authority, as applicable.

# **02** Carrying out a Dry Run

The Dry Run Process	g

# Why Carry out a Dry Run?

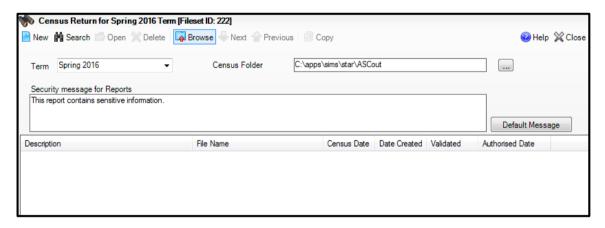

When you have upgraded to the SIMS 2015 Autumn Release (7.166), you can carry out one or more dry runs of the return.

The purpose of a dry run is to produce the Validation Errors Summary, which details the corrections that need to be made to your data to make it acceptable for inclusion in the return. To ensure that you are aware of potential issues, it is advisable to do this as early as possible, even if you know that your data has not yet been fully prepared or checked.

Whilst a significant number of errors may be generated, many of the errors that relate to pupils, e.g. language, can be fixed quickly using the Bulk Update routine (please see *Updating Information Using the Bulk Update Routine* on page 26).

## **The Dry Run Process**

1. Select Routines | Statutory Returns | School Census to display the Census Return for Spring Term browser.

2. Select an existing School **Census Folder** or enter a new location in which the School Census files will be stored. You may wish to make this a temporary folder for the purpose of producing a dry run.

**IMPORTANT NOTE:** Due to the sensitive nature of some of the data stored in SIMS, careful consideration should be given when specifying the location of any folder into which you save sensitive data, e.g. census returns, imported and exported CTFs, etc. You should be mindful of your school's responsibilities with respect to information security.

Consider which users have access to the chosen folder, especially if the folder is shared on a server. The DfE recommends ISO27001 as the standard for information security (<a href="http://www.itgovernance.co.uk/iso27001.aspx">http://www.itgovernance.co.uk/iso27001.aspx</a>). If you are in any doubt, you should consult with your IT Security Officer before proceeding.

- 3. Click the **New** button to display the **Census Return Details** page.
- 4. By default, the return **Description** is displayed as **School Census Spring 2016**. Edit the **Description** to any name that will clearly distinguish this dry run from the actual return, which will be generated later, e.g. Spring16Test.
- 5. Click the **Calculate All Details** button to extract the required information from the SIMS database and display the results in the various panels of the **Census Return Details** page.
- 6. If there is any missing or invalid data, an error message is displayed on the Status Bar. This data must be added/corrected before you can create and validate the return.
- 7. Click the **Create & Validate** button to start the validation process, which may take some time depending on the amount of data. Any missing or invalid data is listed in the **Validation Errors Summary** panel, located at the bottom of the page.

#### **Additional Resources:**

Detailed information about completing the individual panels on the **Census Return Details** page is available in the *Producing the School Census Spring 2016 Return* handbook applicable to your school phase.

#### **Resolving Validation Errors and Checking Queries**

After creating the return file and validating the data, any errors and queries found are listed in the **Validation Errors Summary** panel at the bottom of the **Census Return Details** page.

The number of errors and queries found during the Create and Validate process is displayed in the header of the **Validation Errors Summary** panel.

Details about each of the errors and queries found are displayed in the columns as described in the following table.

Column	Description	
Туре	Displays the type of validation rule:	
	Failure (F displayed in red) indicates an error, which must be corrected	
	Query ( <b>Q</b> displayed in black) indicates that there are unusual data conditions. These should be considered and corrected, if necessary.	
Sequence	Shows the error or query number.	
Message	Displays the text of the error or query message.	
Location	Lists the specific record containing the error or query.	
<b>Solution</b> Provides a suggestion on how the error can be corrected or the quer checked. Many solutions have a hyperlink (indicated by a #) to the appropriate area of SIMS.		

To assist in the resolution of any errors and queries:

• When the mouse pointer is hovered over an error or query row, it changes to a hand if a hyperlink is available to the area of SIMS where the issue can be checked.

NOTE: A hyperlink is also indicated by a hash symbol (#) preceding the **Solution** text.

Click the appropriate hyperlink to display the specific SIMS area where the record(s) can be checked or corrected.

 When the mouse pointer is hovered over a Message, Location or Solution cell, hover help displays the entire content of that cell. The Student Search functionality can be used to display all errors and queries relating to a particular pupil. Enter all or part of a UPN, pupil's surname or date of birth in the **Student Search** field then select the required record from the **Student Search** drop-down list and click the **Find** button.

Click a Solution hyperlink to display the area of SIMS where the
associated issue can be checked and/or corrected. When you return to the
Validation Errors Summary panel, the details of the applicable pupil are
displayed in the Student Search field. Click the Find button to display all
errors and gueries relating to that pupil.

 Use the Errors Search to display the required error or query you want to view. Select ALL, ERRORS, QUERIES or the required failure number from the drop-down list. The total number of rows that relate to the validation failure you have selected is displayed adjacent to the Error Search field.

 By default, the errors are displayed at the top of the list when ALL is selected from the Errors Search drop-down list.

The order of the items in the list can be changed by clicking the appropriate column heading, if required.

The width of the columns can be changed by dragging the dividing line between the column headings until the required size is achieved.

View a summary of validation failures, which is particularly useful if there are a large number of errors/queries, by clicking the **Report** button (located above the **Validation Errors Summary** panel). The report is displayed in your web browser, e.g. Windows® Internet Explorer®, from where it can be printed or be transferred to another application, if required.

The report (Validation Errors Summary.HTML) is saved automatically in the Census Folder, which was specified previously in the Census Return for <season> <year> Term browser. The original report, which was generated when the Create & Validate button was clicked (e.g. <LACode><SchoolNumber>\_<SurveyType>\_ <LACode><LL> <Year>\_<SerialNumber>\_ ValidationErrorsSummary.HTML), is also stored in this folder.

For guidance on navigating to files on your local workstation when you are working in a <u>Hosted</u> environment, please contact your System Manager or Local Support Unit.

Resolve as many errors and check as many queries as possible then revalidate the return details. Continue to resolve failures and revalidate the return as many times as necessary.

NOTE: All errors must be resolved and all queries must be investigated.

If at any point you wish to hide the list of error and queries, click the **Close** button located at the top right-hand side of the **Validation Errors Summary** panel. The list is displayed again when the Create and Validate process is run.

Many of the errors generated can be fixed quickly using bulk update functionality (via **Routines | Pupil | Bulk Update**). For more information, please refer to the *Managing Pupil/Students* handbook.

In addition to the **Validation Errors Summary**, an Errors and Resolutions document containing a list of all errors/queries that can be generated is being produced. Explanations and information on how to resolve the errors or whether the queries can be ignored are also included. The document can help to identify the order in which errors should be corrected. For example, if a UPN is missing, several UPN related errors might be generated. Therefore, adding missing UPNs can remove several errors.

#### **Producing Detail Reports**

Detail reports can be used to check the data stored in SIMS that has been used to create the return.

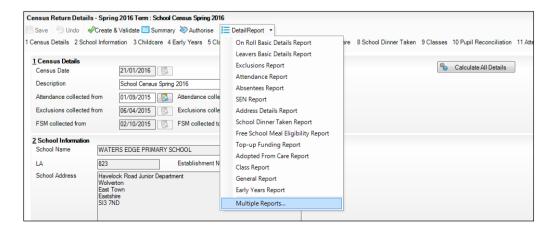

The following reports are currently available, depending on your school's phase:

- On-Roll Basic Detail Report

#### **Selecting a Single Detail Report**

Select the required report from the **Detail Report** drop-down list, located at the top of the **Census Return Details** page. The selected report is generated automatically and displayed in your web browser.

The following example displays the reports available for Primary schools.

#### **Selecting Multiple Detail Reports**

#### **Selecting Multiple Detail Reports**

- 1. Select **Multiple Reports...** from the bottom of the **Detail Report** drop-down list to display the **Detail Reports** dialog. By default, all detail reports are selected.
- 2. If any reports are not required, deselect the associated check boxes.
- 3. Click the **Report** button to generate the selected reports, which are displayed in your web browser.

The report(s) are saved automatically in the folder specified in the **Census Return for Spring Term** browser.

TIP: If required, the report can be transferred to a spreadsheet application, which enables the data to be sorted and the column order to be changed, etc. Right-click the report then select the required option, e.g. **Export to**Microsoft Excel, from the drop-down list.

## **Collating Admission and Infant Appeals Information**

Applicable to Foundation, Voluntary Aided schools and Academies only

NOTE: Academies that were Voluntary Aided or Foundation Schools at the time that the appeals were lodged should complete this panel.

The admissions appeals information is collected from Primary/Middle deemed Primary and All-Through schools that are responsible for their own admission appeals (i.e. Voluntary Aided and Foundation schools).

Data is required for appeals in the academic year 2014/2015, where a refusal to admit a pupil into the school was for a place during the academic year 2015/2016.

The following admission appeals information is collected in the return:

- Admission appeals lodged
- Admission appeals withdrawn
- Admission appeals heard by independent admissions committee
- Admission appeals upheld by independent admissions committee
- Admission appeals rejected by independent admissions committee.

Admission appeals are dealt with by the LA and consequently there is no specific functionality in SIMS relating to this area of admissions. Therefore, the information must be entered manually in the **Admission Appeals** and the **Infant Appeals** panels when completing the School Census Spring 2015 Return (via **Routines | Statutory Returns | School Census**).

11 Admission Appeals

Upheld 0				
Rejected 0				
	Heard 0 Upheld 0			

The infant appeals information is collected from Primary and All-Through schools that are responsible for their own admission appeals (i.e. Voluntary Aided and Foundation schools).

Any infant appeals should be included in the overall count of appeals entered in the **Admission Appeals** panel. They should also be recorded separately in the **Infant Appeals** panel.

## **Checking Pupil Details**

Before starting the School Census return, ensure that all current pupils are recorded in SIMS and that as far as possible, the information is up-to-date and accurate. Ensure that:

- New pupils have been added.
- Any leavers have been recorded as such.

NOTE: Ensure that a pupil's first language and boarder status are entered before they are recorded as a leaver.

- Any duplicate or unwanted pupil records have been deleted.
- Part-time details have been checked/updated.

The following sections provide additional information and specific instructions on checking and completing Pupil Level data. Some of this data can be checked/updated using the Bulk Update routine (please see *Updating Information Using the Bulk Update Routine* on page 26).

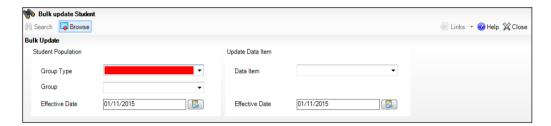

When you have upgraded to the SIMS 2015 Autumn Release (SIMS 7.166), it is strongly recommended that one or more dry runs are carried out in order to identify the validation errors and queries that need to be resolved.

#### **Updating Information Using the Bulk Update Routine**

To prevent validation errors from occurring, it is advisable to check your SIMS data for accuracy before the return is created and validated.

Many items can be checked using the Bulk Update routine. This functionality enables you to search for missing or invalid data then update in bulk. For example, it is possible to search for all pupils who do not have a First Language recorded against their name. From the pupils found, a value can be assigned to all or several pupils. This prevents the need to enter/change values manually for individual pupils.

 Select Routines | Pupil | Bulk Update to display the Bulk update Pupil browser.

In the Bulk Update panel, select the required Group Type and Group from the drop-down lists.

The **Group Type** indicates the type of group to list while the **Group** enables the specific group of pupils to be listed. For example, selecting a **Group Type** of **Year Group** enables a specific year to be selected from the **Group** drop-down list, such as **Year 8**.

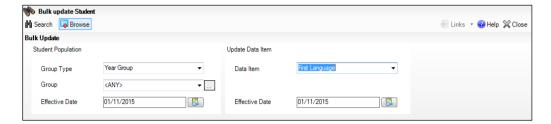

If searching for missing information, select the particular data field from the **Group Type** drop-down list, such as **First Language**, and then select a specific **Group**, such as **<NONE>**.

It is also possible to use this functionality to review the data entered for all the pupils in the school. This is achieved by selecting **Year Group** from the **Group Type** drop-down list and **<ANY>** from the **Group** drop-down list and then selecting the required **Data Item**.

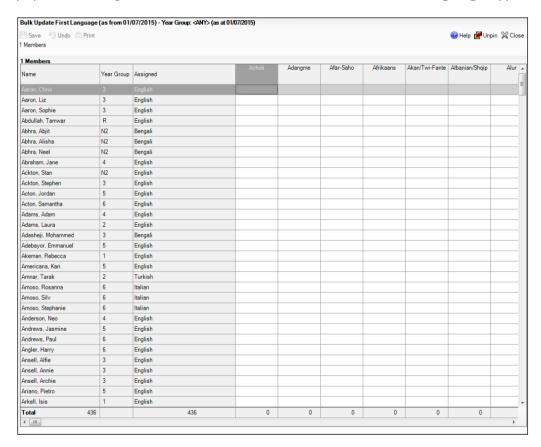

The following table provides some examples of the searches that can be carried out to identify missing data:

Group Type	Group	Data Item	Comment
First Language	<none></none>	First Language	Identifies pupils who do not have a First Language recorded. Can also be used to change existing values as required.
SEN Status	Statemented	SEN Provision Type	Lists pupils with a SEN Status of <b>S</b> enabling the SEN Provision to be selected.
Year Group	Year 8 (and above)	Boarder Status	Searches for all pupils in Year Group 8 and then displays the boarder status recorded against each pupil's name.

- Select the required **Data Item** from the drop-down list, e.g. **First Language**.
- 4. The **Effective Date** is the date on which the membership of the group is based and defaults to today's date. In most circumstances, it is advisable to change this date to the start of the academic year because most data recorded is applicable from the start of the academic year.

Click the Search button to display the Members panel, which displays a list of pupils matching the chosen criteria and the choice of First Language types.

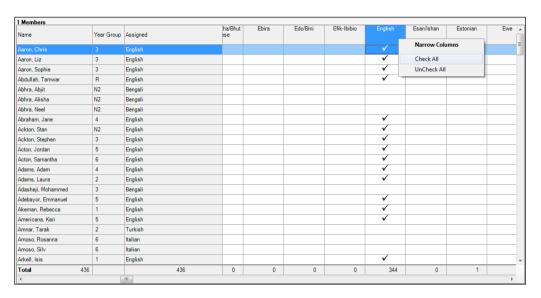

TIPS: Use the horizontal and vertical scroll bars to view additional columns or rows as required. To increase the number of columns visible on the page, right-click any column heading then select **Narrow Columns** from the pop-up menu.

#### Bulk Updating Data with the Same Data Item then Editing the Exceptions

Often, the most effective way of populating missing data is to fill all the rows with the same data item and then edit the exceptions (for example, depending on the ethnic range within your school).

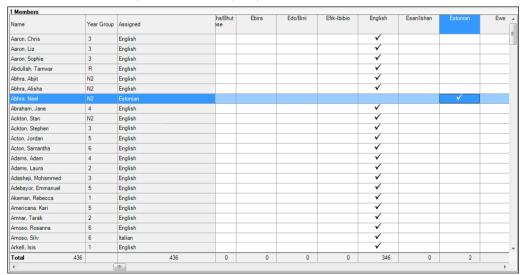

The following example illustrates how to set the ethnicity of all pupils as **English** then edit the exceptions.

1. Right-click the **English** data entry column header (hover over the heading to see the full title, if required) then select **Check All** from the pop-up menu.

All the cells within that column are populated with ticks.

2. Edit the exceptions by clicking in the cell associated with the individual pupil and their status, e.g. the first language of **Neel Abhra** is **Estonian**.

Once you have made all the required changes, click the Save button to bulk update the records.

#### **Bulk Updating Data for a Selection of Pupils**

There are two methods for selecting a number of pupils.

#### **Entering a Value for a Selection of Pupils**

- 1. Highlight the first pupil you wish to select then hold down the **Ctrl** key and highlight the other required pupils.
- 2. Release the **Ctrl** key and then click one of the highlighted cells in the required data item column.

A tick indicates that the pupil has been assigned that value.

#### **Entering a Value for Sequentially Listed Pupils**

This method can be used for assigning a value to a group of sequentially listed pupils. For example, clicking the **Assigned** column heading displays all unassigned pupil at the top of the list.

- 1. Highlight the first pupil in the group, hold down the **Shift** key then click the last pupil in the group (alternatively, hold down the **Shift** key and press the **Down Arrow** key).
- 2. Release the **Shift** key then click one of the highlighted cells in the required data item column.

A tick indicates that the pupil has been assigned that value.

## **Recording Leavers and Re-Admissions**

Ensure that all your leavers are taken off-roll and any returning pupils are re-admitted.

The accuracy of pupil numbers can be checked by running the Population Analysis (Dated) report (**Reports | Run Report – Focus – Student**). This is a predefined report that gives a breakdown of the number of pupils (including numbers by gender) for each registration group in each year, together with a grand total.

#### **Recording a Leaver**

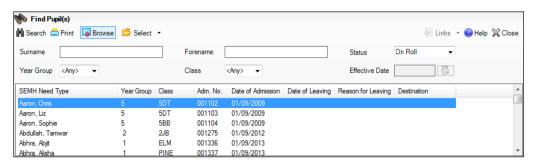

The **Date of Leaving** is collected for all schools with the exception of Nursery schools.

1. Select Routines | Pupil | Leavers to display the Find Pupil(s) browser.

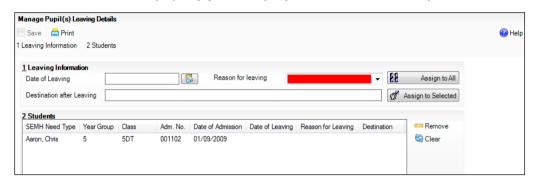

2. Ensure that the **Status** of **On Roll** is selected.

Click the Search button to display a list of all on-roll pupils.

4. Highlight the pupil(s) you wish to record as leavers then click the **Select** button. The selected pupils(s) are displayed in the **Students** panel.

5. In the **Leaving Information** panel, enter the **Date of Leaving** or click the **Calendar** button and select the required date.

The date of leaving should be the date that the pupil is actually leaving the school, unless they are transferring from Junior/Primary phase to Secondary phase because Local Authorities normally specify the dates to be used for school transfers so that they match. For example, some authorities prefer not to have any gaps between dates and may suggest a date of leaving (the old school) of 4 September and the date of admission (into the new school) of 5 September. If you are in any doubt, please contact your Local Authority for advice.

- 6. Select the **Reason for Leaving** from the drop-down list, then either:
  - highlight the pupils to whom this information applies (using the Ctrl or Shift keys) and click the Assign to Selected button; or
  - if the information applies to all the pupils in the list, click the **Assign to All** button.
- 7. Optionally, enter the **Destination after Leaving** if known, then either:
  - highlight the pupils to whom this information applies (using the Ctrl or Shift keys) and click the Assign to Selected button; or
  - if the information applies to all the pupils in the list, click the **Assign to All** button.
- 8. To remove a pupil from the list, highlight their name then click the **Remove** button.
- 9. To clear the contents of the **Date of Leaving**, **Reason for leaving** and **Destination after Leaving** fields, highlight the required pupil(s) then click the **Clear** button. Re-enter the information as required.
- 10. Click the Save button.

#### Re-Admitting a Pupil

Any pupil who leaves the school and subsequently decides to return must be re-admitted.

NOTES: Do not remove the leaving date, as the pupil's period of absence from the school will not be recorded.

However, if a pupil is intending to leave but subsequently changes their mind and decides not to leave, the date of leaving can be removed, as continuous attendance has been maintained.

- 1. Select Focus | Pupil | Pupil Details to display the Find Student browser.
- 2. Click the **New** button to display the **Add Student** page. It is necessary to enter limited information here as you know that the person already exists.
- 3. Click the **Continue** button to display a list of **Matched People**, based on the criteria entered on the **Add Student** page.
- 4. Highlight the required pupil then click the **Open** button. The following warning message is displayed:

The selected student is a leaver. Do you want to re-admit the student?

- 5. Click the **Yes** button if you are certain that this is the pupil who should be re-admitted. Their details are displayed on the **Pupil** (or **Student**) **Details** page.
- Complete the mandatory fields (Date of birth, Gender, Year Group, Enrolment Status, Year Taught In and Admission Date) and check any other details that may have changed since they were last on-roll, such as their address.
- 7. Check that the original **UPN** is displayed.

If it did not previously exist, generate a new **UPN** by clicking the button adjacent to the **UPN** field to display the **Issue UPN** dialog.

Select either the **Issue Permanent** or **Issue Temporary UPN** radio button then click the **OK** button to return to the **Registration** panel.

The temporary/permanent UPN is issued on save.

8. Click the **Save** button to re-admit the pupil.

NOTE: If the pupil's registration status has changed from when they were previously on-roll, their enrolment status should be changed via **Routines** | **Pupil | Change Enrolment Status**.

pii   Change Enrolment Status.		
	☐ Completed	

# **Deleting Unwanted Pupil Records**

If there are pupils who have been entered in error (such as duplicates), ensure that they are deleted so that they are not included in the return. This is achieved via **Routines | Pupil | Delete Pupil**. After selecting the required pupil, you have the opportunity to review and print their information before deleting their record permanently.

**WARNING:** The deletion is irreversible; therefore a pupil's record must <u>only</u> be deleted if they have been entered in error.

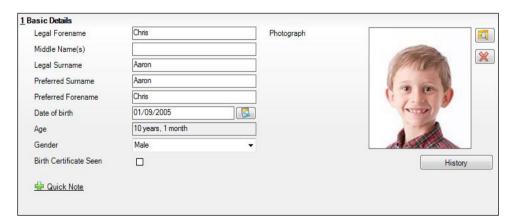

Completed

# **Checking a Pupil's Basic Details**

Ensure that basic details for all pupils are correct. It may be necessary to make changes for a number of reasons, e.g. to correct inaccurately entered information, legal adoption, change of legal surname, etc.

The following information is collected in the return:

- Legal Forename (mandatory information in SIMS)
- Middle Names
- Legal Surname (mandatory information in SIMS)
- Former Surname
- Preferred Surname (mandatory information in SIMS)
- Gender (mandatory information in SIMS)
- Date of Birth (mandatory information in SIMS).
- 1. Select Focus | Pupil | Pupil Details to display the Find Pupil browser.
- 2. Search for then double-click the name of the required pupil to display the **Pupil Details** page.

 Check that all the details displayed in the Basic Details panel are up-to-date and accurate, paying particular attention to the data collected in the return (listed previously).

If a legal change (rather than a correction) is made to the **Legal Forename**, **Middle Name(s)** or **Legal Surname**, a **Reason** and **Date of Change** must be recorded.

4. If you have made any changes, click the **Save** button.

#### Recording a Pupil's Change of Surname

It is a requirement of the return that a history of pupils' previous surname(s) is recorded.

- 1. In the Basic Details panel, edit the pupil's Legal Surname.
- 2. Click the **Save** button. The following message is displayed:

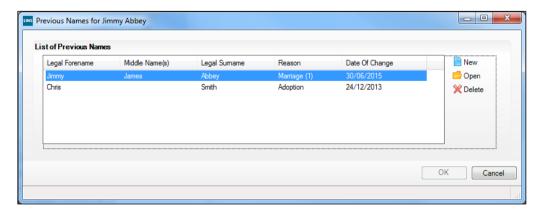

Is this a correction to the name or a legal change to the student's name? If it is a legal change, please select Yes.

3. Click the **Yes** button to display the **Reason For Change** dialog.

- 4. Select the applicable **Reason** for change from the drop-down list. This entry is optional but is recommended to maintain a complete history of name changes.
- 5. The **Date of Change** defaults to today's date but can be amended by clicking the **Calendar** button and selecting an alternative date, if required.
- 6. Click the **OK** button to return to the **Basic Details** panel.
- 7. Click the **Save** button.

To view a list of the pupil's previous names, click the **History** button to display the **Previous Names for** dialog.

Click the Cancel button to return to the Basic Details panel.

# **Checking Registration Details**

The following registration information is collected in the return and should therefore be checked and corrected, if necessary:

- **Enrolment Status** (mandatory information in SIMS)
- Admission Date (mandatory information in SIMS)
- Year Taught In, i.e. National Curriculum Year Group (mandatory information in SIMS)
- Boarder Status
- UPN
- Former UPN (this is a read-only field, which is populated automatically if the UPN is changed)
- Unique Learner Number (applicable to Special schools only)

- 5. Ensure that the **Admission Date** is entered correctly (dd/mm/yyyy). Edit the date or click the **Calendar** button and select a different date, if required.
- 6. Ensure that the **Year Taught In** field displays the actual National Curriculum year in which the pupil is taught the majority of the time (please see *Checking National Curriculum Year Groups* on page 40).
- 7. Check the pupil's **Boarder Status**. Select the correct boarder status from the drop-down list, if required.
- 8. Click the **Save** button.

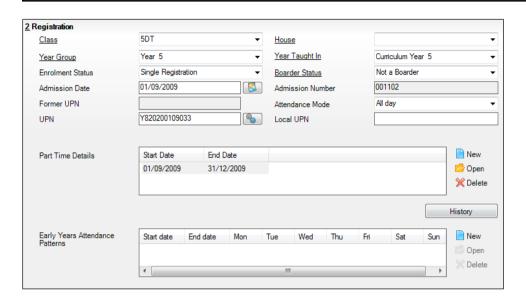

Completed

#### **Checking Unique Pupil Numbers**

Ensure that all pupils have a UPN recorded and that all UPNs are in the correct format. A temporary UPN is acceptable in some circumstances.

- 1. Select Focus | Pupil | Pupil Details to display the Find Pupil browser.
- 2. Search for then double-click the name of the required pupil to display the **Pupil Details** page.
- Click the Registration hyperlink to display the Registration panel.

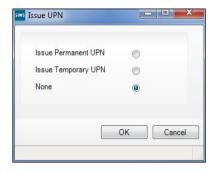

NOTE: **The Early Years Attendance Patterns** section of the **Registration** panel is visible to Primary schools <u>only</u>.

A unique UPN should be entered in the **UPN** field. If the UPN entered has an invalid format, the field turns red indicating that the UPN is incorrect and should be re-entered.

- Permanent UPNs are issued to a new pupil only when it is believed that they have never previously been allocated a UPN or to replace a temporary UPN.
- Temporary UPNs are issued to a pupil when the permanent UPN is not known to the school, e.g. awaiting transfer file/applicant's information. A temporary UPN can be recognised by the letter after the UPN number, e.g. H82020010701A.
- 4. If necessary, issue a new UPN by clicking the **Generate UPN** button adjacent to the **UPN** field to display the **Issue UPN** dialog.

- 5. Select either the **Issue Permanent UPN** or **Issue Temporary UPN** radio button.
- 6. Click the **OK** button to return to the **Registration** panel.

7. Click the **Save** button to save any changes. The UPN is generated automatically when the record is saved.

NOTE: A pupil who is adopted after being allocated a UPN is often issued with a new permanent UPN. However, the exact process may vary depending on the circumstances and the guidance issued by your LA/DfE.

For information about issuing a new UPN for an adopted child, please seek advice from your LA, if applicable.

DfE guidance is also available on the GOV.UK website (<a href="https://www.gov.uk/government/publications/unique-pupil-numbers">https://www.gov.uk/government/publications/unique-pupil-numbers</a>).

#### **Checking Unique Learner Numbers**

#### Applicable to Special schools and Pupil Referral Units

A Unique Learner Number (ULN) is a 10-digit identifier that is retained and stays with the pupil's learning record throughout their lives. Currently, this applies to pupils over the age of 14 involved in UK education or training.

Learning Records Service (previously known as the Managing Information Across Partners Programme) issues and maintains a ULN record for applicable pupils. ULNs can be obtained in one or more of the following ways:

- The DfE ULN service to upload a CTF file via a web page on the S2S website (http://www.education.gov.uk/researchandstatistics/datatdatam/s2s/a004650/school-to-school-s2s).
- The Learner Registration Service Web Portal to obtain individual ULNs (https://www.gov.uk/government/collections/learning-records-service).
- The Key to Success website (https://www.keytosuccess.education.gov.uk/).

If available, enter a ULN for each pupil over the age of 14.

- 1. Select Focus | Pupil | Pupil Details to display the Find Pupil browser.
- Search for then double-click the name of the required pupil to display the Pupil Details page.

#### **Checking/Correcting Part-Time Pupil Information**

The collection of part-time details is mainly relevant to Nursery schools (or schools with nursery age children) and Primary schools with Reception years. However, any pupil can be marked as part-time if their attendance is anything less than 10 sessions per week.

For dual registered pupils, time in other schools should be taken into account. For example, three full days in one school and two full days in another school should <u>not</u> be classified by either school as part-time.

When recording part-time details, a minimum of a **Start Date** needs to be entered in the **Part Time Details** section.

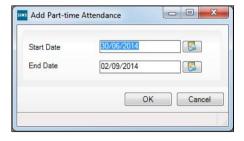

- 1. Select Focus | Pupil | Pupil Details to display the Find Pupil browser.
- 2. Search for then double-click the name of the required pupil to display the **Pupil Details** page.

3. Click the **Registration** hyperlink to display the **Registration** panel.

NOTE: The **Early Years Attendance Patterns** section of the **Registration** panel is visible to Primary schools only. If applicable, Primary schools should complete the **Early Years Attendance Patterns**, as this will help when updating Hours at Setting.

- 4. Check the details in the **Part Time Details** section. A minimum of a **Start Date** must be displayed.
- Part-time details can be added by clicking the New button to display the Add Part-time Attendance dialog.

- 6. Enter a minimum of the **Start Date** then click the **OK** button to return to the **Registration** panel.
- 7. Click the **Save** button to save any changes.

IMPORTANT NOTE: It is equally important to edit the details of any pupils who are no longer part-time. This is achieved by highlighting the pupil's Part Time Details record then clicking the Open button to display the Add Part-time Attendance dialog. Enter the correct End Date then click the OK button to return to the Registration panel.

# **Checking National Curriculum Year Groups**

The National Curriculum Year Group (Year Taught In) is the year group in which the pupil is <u>taught</u> for the majority of the time, regardless of their chronological age. In most cases, this will be the same as the Year Group. However, some children are taught in the year above or below the expected year (based on their age), perhaps because they are academically advanced or behind. It is very important that the correct **Year Taught In** has been recorded in SIMS.

For the School Census Spring 2016 Return, the collection of data uses the Age at Date as at 31/08/2015.

The following table shows the Curriculum Year that pupils in England are expected to be taught in, according to their date of birth (during the academic year 2015/2016).

Curriculum Year the Pupil would Normally be Taught in	Date of Birth Range	Age Range
	After 31/08/2013	1 and under
N1	01/09/2012 to 31/08/2013	2 - 3
N2	01/09/2011 to 31/08/2012	3 – 4
R	01/09/2010 to 31/08/2011	4 – 5
1	01/09/2009 to 31/08/2010	5 - 6
2	01/09/2008 to 31/08/2009	6 – 7

7	01/09/2003 to 31/08/2004	11 - 12
8	01/09/2002 to 31/08/2003	12 - 13

11	01/09/1999 to 31/08/2000	15 - 16
12	01/09/1998 to 31/08/1999	16 - 17
13	01/09/1997 to 31/08/1998	17 - 18
	Before 31/08/1997	19+

There are three ways to check a pupil's curriculum year and date of birth in SIMS:

- Via individual pupil records (Focus | Pupil | Pupil Details).
- Via the pastoral structure by curriculum year (Focus | School | Pastoral Structure | Current Structure).
- Via the pastoral structure for the whole school (Focus | School | Pastoral Structure | Current Structure).

# **Checking Home Address Information**

A pupil's current home address is required for the return. Where a pupil has multiple current addresses, details of all addresses should be recorded.

All aspects of the address(es) are collected and therefore all address details should be recorded in order to avoid validation errors. It is particularly important to check that a **House Name** or **House Number** and a **Post Code** are entered in the correct fields.

Post codes must be entered in the correct format. A validation error is generated if a post code has not been entered (although it is understood that in some instances, such as Traveller children, a post code is not available).

- 1. Select Focus | Pupil | Pupil Details to display the Find Pupil browser.
- 2. Search for then double-click the name of the required pupil to display the **Pupil Details** page.

#### Not applicable to Nursery schools

In care details are collected for pupils who were subject to any exclusion with a start date during the period 06/04/2015 to 31/08/2015 inclusive.

Any pupil in care (looked after children) should be recorded as such in SIMS. A child is considered 'In Care' or 'Looked After' if he or she is in the care of the Local Authority or is provided with accommodation for more than 24 hours by the authority. Please consult the person at school with the designated authority for in care children, e.g. the SEN Co-ordinator, if you are unsure.

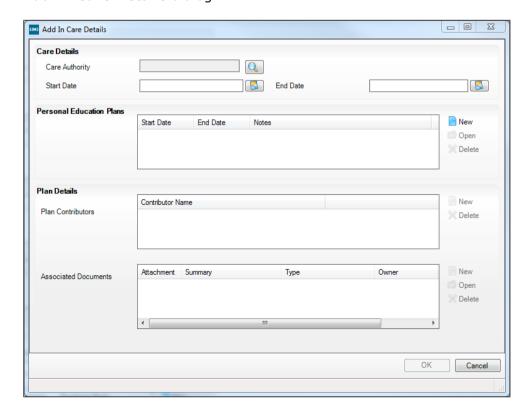

Minimum details are required to set up an in care record, i.e. the **Care Authority** and a **Start Date**.

	If you do not use SIMS Attendance or SIMS Lesson Monitor and you do not use a software package that writes back to the SIMS database, or if you have not converted to the code of practice for attendance codes, you need to calculate and enter the following information manually on the <b>Census Details</b> page (via <b>Routines   Statutory Returns   School Census</b> ):

# **Recording Universal Infant School Meals**

Applicable to schools with pupils in Reception, Year 1 and Year 2

NOTE for Special schools: The School Dinner Taken routine is applicable to Special schools that have on-roll pupils who have taken a school dinner on census day and who are in Year Taught In Reception, Year 1 or Year 2 and those in Year Taught In X aged four to six who were born between 01/09/2008 and 31/08/2011.

All pupils in Reception, Year 1 and Year 2 in English state-funded schools are offered a Universal Infant School Meal, i.e. a hot meal at lunchtime. This applies to Academies, Free Schools and Pupil Referral Units, as well as to schools maintained by the Local Authority. The School Census Spring 2016 Return collects information about pupils who receive a Universal Infant School Meal (school dinner) on census day.

School dinners taken on the **Reference Date** (by default, census day) can be calculated from the information stored in Dinner Money. Dinner Money users should therefore ensure that school dinners taken are recorded correctly via **Focus | Attendance | Take Register** or **Focus | Dinner Money | Record Pupil Meals**.

- If default meal patterns have been entered (via Focus | Dinner Money | Pupil Default Meal Patterns), the Dinner Register is populated automatically with the default meals.
  - For more information about setting up default meal patterns, please refer to the *Setting up and Maintaining Dinner Money* handbook.
- Where any 'pupil not present' attendance marks have been entered, the Dinner Register is populated automatically with an absent mark.
- Any special meals entered in advance are displayed and are not overwritten by the default meal pattern.

The attendance data recorded for census day morning can be used to calculate all pupils who are present and are likely to be taking a school dinner. Therefore, when completing the School Census **School Dinner Taken** panel, the calculated numbers must be edited to reflect hot meals provided by the school only. Ensure that the pupils listed on the Reception, Year 1 and Year 2 attendance registers are accurate and that the registers are taken on census day morning (before completing the School Census **School Dinner Taken** panel).

# **Updating Class Types**

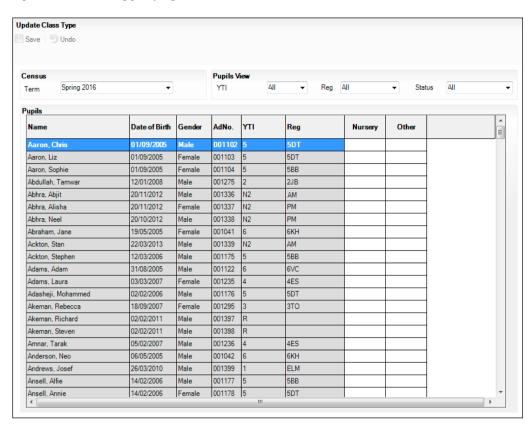

#### Applicable to Primary schools only

Before starting the return, it is necessary to indicate which classes a pupil is a member of – either **Nursery** (if the pupil is currently in a LA designated Nursery Unit) or **Other** (any other class). This is only needed for newly added pupils where they have transferred from a LA designated Nursery Unit into an 'Other' class.

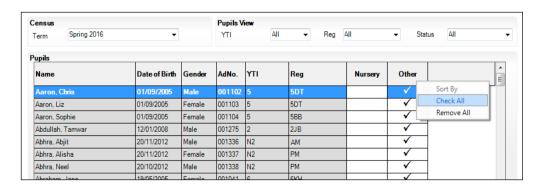

The values displayed on the **Update Class Type** page default to those of the previous return. Existing details should be checked and edited, if necessary, and the details of any new pupils added.

NOTE: If new pupils exist, the default class type is displayed as blank.

 Select Tools | Statutory Return Tools | Update Class Type to display the Update Class Type page.

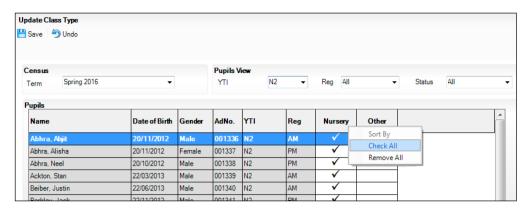

- 2. To specify the class type for an individual pupil, click in the applicable cell of the **Nursery** or **Other** column to enter a tick. Clicking the cell again removes the tick.
- 3. If all or the majority of pupils need to be assigned the same class type, the following method can be used to quickly populate the **Nursery** and **Other** columns:
  - a. Right-click the Other column header then select Check All.

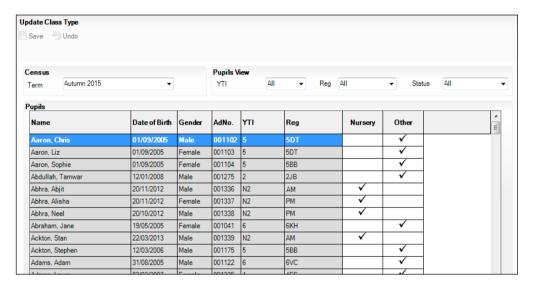

b. In the **Pupils View** panel, select, for example, Year **N2** from the **YTI** drop-down list. Year **N2** pupils only are displayed in the **Pupils** panel.

c. Right-click the **Nursery** column header then select **Check All**.

- d. Repeat steps b and c for any additional Nursery classes.
- e. To check your selections, select **All** from the **Year Group** drop-down list.

#### 4. Click the **Save** button.

If a message is displayed advising that some pupils have not been assigned a class type, click the **Yes** button then ensure that a class type is allocated to every pupil before saving again.

Click the **OK** button to return to the **Census Return Details** page, where the updated class types are displayed.

#### **Resetting All Class Types**

To reset all class types, right-click the **Nursery** (or **Other**) column header then select **Remove All** from the pop-up list. The **Nursery** (or **Other**) column is cleared of all ticks.

Re-enter the correct class types as previously described.

#### **Identifying which Pupils have no Class Type Specified**

To ensure that all pupils are assigned to a class type, select **No Class Type** from the **Status** drop-down list in the **Pupils View** panel on the **Update Class Type** page. Any pupils without a **Class Type** are displayed in the **Pupils** panel.

# **Checking Early Years Data**

Early Years Pupil Premium Eligibility (EYPPE) data is not applicable to Middle deemed Primary schools.

Early Years Pupil Premium Eligibility (**EYPPE**) information is required for three and four year olds who attend Nursery schools, Primary schools, Special schools or Pupil Referral Units.

Children will be eligible for EYPP if they are receiving any hours of funded early education and any of the following:

they meet the benefits-related criteria for Free School Meals

NOTE: Meals delivered as part of the universal entitlement are not Free School Meals.

- they are in care
- they have been adopted from care.

There are four elements to EYPPE:

- Funded Hours Funded Hours are collected from all schools that have early years pupils on-roll on census day. The hours collected in this return are for the week in which the census day falls. This data is recorded via Routines | Statutory Returns | School Census - Early Years panel.
- Parents on Benefits this information is not recorded in SIMS.
- In Care on Census Day In Care is defined as meaning 'in the care of the local authority'. The data is collected for the time that the child is at the current school only and <u>not</u> from previous school(s), and is recorded via Focus | Pupil | Pupil Details Welfare panel.
- Adopted from Care this data is recorded via Routines | Statutory
   Returns | School Census Adopted from Care panel.

Hours at Setting does <u>not</u> form part of the EYPPE criteria but the facility to record Hours at Setting is available in the **Early Years** panel. Hours at Setting data is collected from all schools that have early years pupils on-roll on census day. The hours collected in this return are for the week in which the census day falls.

NOTE for Middle deemed Primary Schools: The facility to record Hours at Setting and Funded Hours is available on the **Early Years** panel. The hours are collected from all school phases that have early years pupils on-roll on census day.

The hours collected in this return are for the week in which the census day falls. This data can be recorded via the **Early Years** panel or **Tools** | **Statutory Returns Tools** | **Early Years** - **Update Early Years** page.

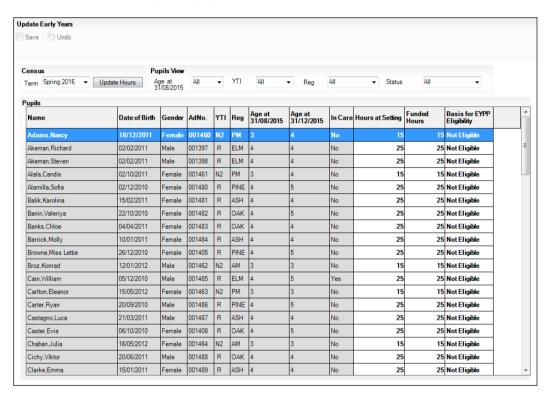

The following table displays the dates of birth of children for whom early years pupil premium data is required.

Age	Date of Birth Ranges
All 3 year olds	01/09/2011 and 31/12/2012 inclusive
4 year olds (in N1 and N2 only)	01/09/2010 and 31/08/2011 inclusive

1. Select **Tools | Statutory Return Tools | Update Early Years** to display the **Update Early Years** page.

Where available, the hours data is brought forward from the Autumn 2015 Census.

The values displayed on the **Update Early Years** page default to those of the previous return. Existing details should be checked and edited, if necessary, and the details of any new pupils added.

The **Update Hours** button is available to Primary schools only. It enables Hours at Setting, for pupils who are receiving free nursery care, to be updated automatically (provided that Early Years Attendance Patterns have been defined via **Focus | Pupil | Pupil Details**).

2. Click the **Update Hours** button to display the number of hours that the listed pupils are expected to attend during the census week (based on the early years provision times recorded as part of their attendance pattern).

NOTE: If your school does not use the Define Early Years Attendance Patterns functionality, the data can be entered in the grid manually.

To add or edit the number of **Hours at Setting** (or **Funded Hours**) for an individual pupil, select the required criteria from the options in the **Pupils View** panel. Highlight the required pupil, click the applicable cell and then enter the required number of hours.

IMPORTANT NOTES: A value between 0 and 99.5 must be entered for each pupil. 0 (zero) is a valid value. If the value entered is within this range but higher than expected by the DfE, a validation error is displayed when the return is created and validated. An explanation as to why the value is higher should be recorded on the COLLECT Portal.

Hours must be entered in increments of 0.5 only.

If any cell in either the **Hours at Setting** (or **Funded Hours**) column is left blank, a validation error is displayed when the return is created and validated. Enter a value between 0 and 99.5.

- If most of the pupils are receiving the same number of hours, the following method can be used to quickly populate the column:
  - In the **Pupil View** panel, select the required year group from the **YTI** drop-down list. The selected pupils only are displayed in the Pupils panel.

# **05** What Next?

After carrying out the preparation routines documented in this guide, ensure that any subsequent changes at your school (e.g. pupil basic detail changes, SEN provisions changes, leavers and admissions/re-admissions, etc.) are recorded accurately in SIMS.

The SIMS 2015 Autumn Release (7.166) must be installed before completing the School Census Spring 2016 Return.

You should now be ready to produce the final School Census Spring 2016 Return. For specific instructions, please refer to the **Producing the School Census Spring 2016 Return** handbook applicable to your school phase, i.e. Nursery, Primary/Middle deemed Primary, Special or Pupil Referral Unit.

### Where Can I Get More Information?

In addition to this preparation guide, handbooks outlining how to produce the School Census Spring Return (via **Routines | Statutory Returns | School Census**) and an *Errors and Resolutions document* (which provides suggestions on how to resolve any validation errors or queries) are available on the School Improvement (EDNet Website) using the link below

- Producing the School Census Spring 2016 Return (Nursery, Primary. Special and PRU handbook versions)
- School Census 2016 Errors and Resolutions document.

You may also find the information in the *Managing Pupil/Students* handbook helpful, as it provides details about the processes that relate to the adding and editing of pupil data in SIMS.

A wide range of documentation is available from within SIMS via the **Documentation Centre** and can be accessed by clicking the **Documentation** button located at the top right-hand side of the SIMS **Home Page**.
