

Advert information-

Class Teacher - Rectory CoE Primary School

Salary: MI-M6 / UPSI-3

Start Date: September 2026

The successful candidate must be committed to embedding and promoting the Christian ethos of the school, forming positive relationships with children, staff, parents, governors, and the local community whilst maintaining high standards and expectations for all.

Our school family and local community are proud of our school, which is underpinned by our Christian values. We are committed to ensuring that school offers an excellent education for our children. Our children, staff and governors are a wonderful team. The staff work hard, and a new member to our school family needs to also share our determination to do our very best and to support all children to achieve in an environment where they feel safe and supported. In return, we would offer all the support and training necessary to help the successful candidate to fulfil their potential and realise their ambitions. We offer a culture of camaraderie between all staff with relationships built upon trust and understanding. On top of this, joy and laughter are present in everyday school life.

Rectory is a one-form primary school in Downall Green, South Wigan and is a happy place to work. The children are keen to learn, and they deserve the best. This post offers a fantastic opportunity for a creative, positive, inspiring, and enthusiastic individual to join our team as we continue to move our school forward

Visits to the school and/or an informal chat with myself or a member of SLT are warmly welcome in the days up to the deadline. Please contact Mrs Proudfoot, school business manager, to make an appointment.

All school staff, governors and volunteers are committed to safeguarding and promoting the welfare of children. The post is subject to a satisfactory enhanced DBS check. Position required from: 1st September 2026

Many thanks,
Mr Richard Brook
Headteacher

Closing Date: Thursday 11th June 2026

Shortlisting: Friday 12th June 2026

Interviews / Observations: w/c Monday 15th June 2026
